All personal information that you provide to us must be true, complete, and accurate, and you must notify us of any changes to such personal information.

Information stored through third-party platforms

KORE co-working collects and stores only the personal information that members willingly provide through secure, third-party platforms used to operate our Services, such as Google Drive, Dropbox, and SignNow. These platforms use industry-standard encryption (HTTPS/TLS) and maintain independent privacy and security certifications to protect user data.

KORE co-working implements reasonable administrative, technical, and physical safeguards to prevent unauthorized access or misuse of member information. Our data-handling practices are periodically reviewed to ensure compliance with applicable privacy and security standards and to maintain the confidentiality of all member information.

6. HOW DO WE KEEP YOUR INFORMATION SAFE?

In Short: *We aim to protect your personal information through a system of organizational and technical security measures.*

We have implemented appropriate and reasonable technical and organizational security measures designed to protect the security of any personal information we process. However, despite our safeguards and efforts to secure your information, no electronic transmission over the Internet or information storage technology can be guaranteed to be 100% secure, so we cannot promise or guarantee that hackers, cybercriminals, or other unauthorized third parties will not be able to defeat our security and improperly collect, access, steal, or modify your information. You can withdraw your consent at any time by contacting us by using the contact details provided in the section "HOW CAN YOU CONTACT US ABOUT THIS NOTICE?" below.

9. CONTROLS FOR DO-NOT-TRACK FEATURES

Most web browsers and some mobile operating systems and mobile applications include a Do-Not-Track ("DNT") feature or setting you can activate to signal your privacy preference not to have data about your online browsing activities monitored and collected. At this stage, no uniform technology standard for recognizing and implementing DNT signals has been finalized. As such, we do not currently respond to DNT browser signals or any other mechanism that automatically communicates your choice not to be tracked online. If a standard for online tracking is adopted that

we must follow in the future, we will inform you about that practice in a revised version of this Privacy Notice.

California law requires us to let you know how we respond to web browser DNT signals. Because there currently is not an industry or legal standard for recognizing or honoring DNT signals, we do not respond to them at this time.
